

these packages are only available to amateur and professional models. once you have chosen your package please contact lauren. she will discuss with you the type of images you require, clothing and make-up and the location of your shoot.

you can view your images straight after the shoot and decide which ones to use. a model's portfolio should consist of several shoots from different photographers and include a full range of looks, dress and styles.

lauren will not pressure you into doing anything you are uncomfortable with. she trusts you will know your limits before hand and these will be discussed before the shoot.

hair and make-up artists are available upon request at an additional charge of £50.
